Container Table Foot

The container table concept is a fully versatile system that has endless composition possibilities to suit your space. With combinations to suit your home, office or public space the container table can far exceed your requirements.

Designer	Marcel Wanders
Year of design	2002
Material	PE
Additional	The feet can be filled with sand to create extra stability.

Detailing

Every foot has a standard mounting top, thickness: 1,2cm.

Technical

The container table top range all attached to the container foot in the same way. The container concept is that sand or water can be added to the foot to give it strength and stability. Water must always be treated with an anti-algae additive to prevent the water from becoming stale. There are 5 Hex-bolts on the underside of each table which align with 5 equally spaced holes in the mounting disk.

Cleaning Instructions

Moooli recommends using a trusted household furniture polish or a regular household spray cleaner and a soft, non-abrasive cloth to create an even sheen. Always read the label of any cleaning products you wish to use on Moooli furniture.
